### Description of Programs

#### Maritime Center

The Maritime Center program will serve those students who are approximately 11-14 years of age. Student's curriculum and instruction in this middle level program will focus on mastery of academic subjects, development of critical and creative thinking, information literacy, and healthy habits. At the Maritime Center, students will be involved in hands-on, maritime related educational, vocational, and recreational opportunities including learning about Presque Isle and the Lake Erie environment, as well as world-wide environmental issues.

#### Hamilton Center & Leadership Center

The Hamilton and Leadership Centers will address the needs of high school students. The high school curriculum and instruction will focus on the development of abilities needed by students to succeed in both the workplace and post high school education. Students will be engaged in activity centered classrooms that help students problem-solve, formulate ideas, and evaluate information. Workplace skills, personal development, reading and literacy, and the application of mathematical skills will form the base of the high school program.
